MyFirstApp/ project root

MyFirstApp/ (code folder)

- MyFirstAppApp.swift ← app entry point
- ContentView.swift ← main screen
- Assets.xcassets ← icons, images, colors

(new files all go in this folder)

Info tab / Info.plist

App declarations: name, permissions, settings

Other key places

- Preview Content/ ← preview assets

Target settings (the blue project icon)

— version number, minimum OS, signing are all here

MyFirstAppTests/ ← unit tests

- MyFirstAppUITests/ ← UI tests

(test templates are already generated; used in Chapter 67)
